

Step 2:

Find a program near you.

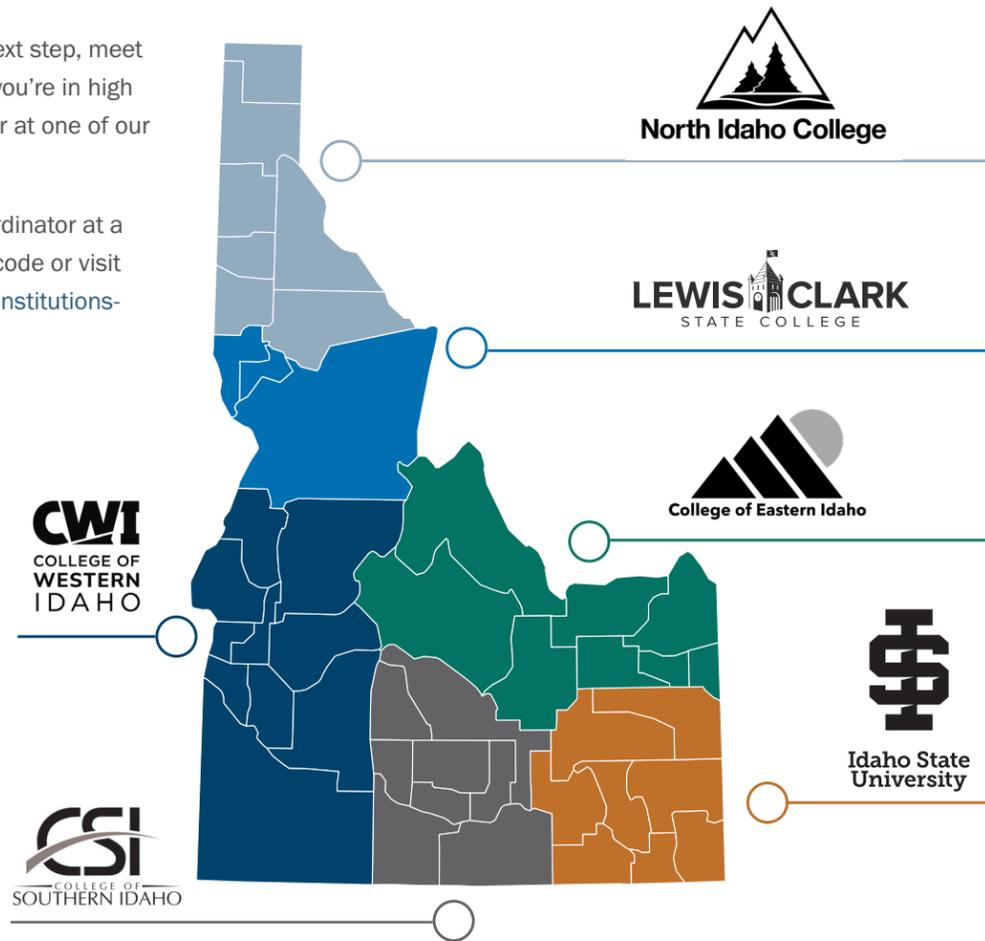

Found a program area or career that sounds interesting?

Use the QR code or visit <https://nextsteps.idaho.gov/cte-program-directory> to see what programs are available in your area.

Step 3: Talk to your guidance counselor or a transition coordinator to register.

When you're ready to take the next step, meet with your guidance counselor if you're in high school or a transition coordinator at one of our six technical colleges to register.

To connect with a transition coordinator at a technical college, follow the QR code or visit <https://cte.idaho.gov/students/institutions-transition-coordinators/>. They'll help you make a plan to pursue the career that's right for you and help you transfer any credits you've earned.

We prepare Idaho's youth and adults for high-skill, in-demand careers.

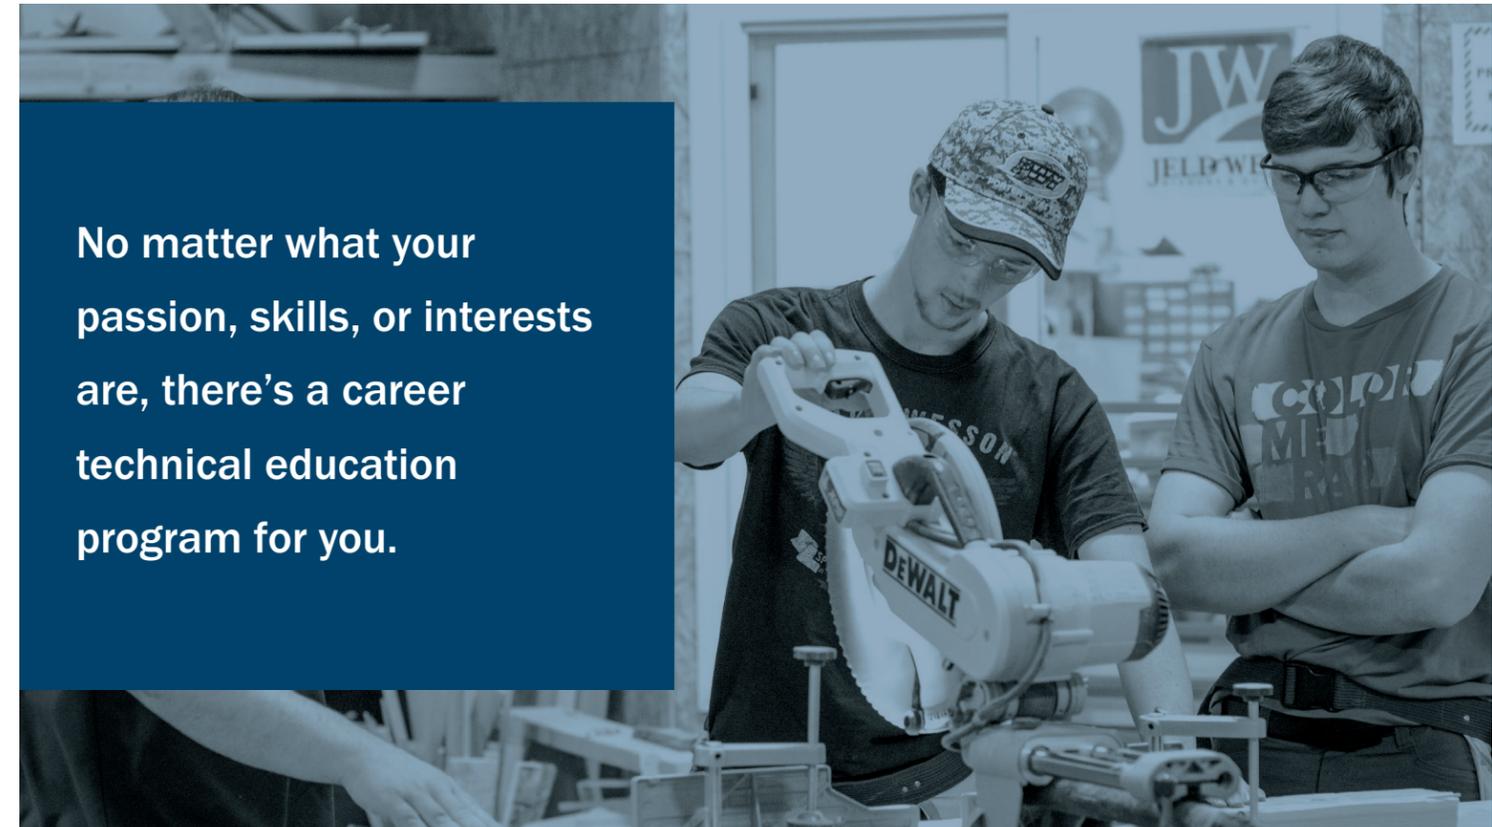

650 W. State St. Suite 324, Boise ID 83702 | 208-429-5500 | info@cte.idaho.gov | cte.idaho.gov

Let's get technical.

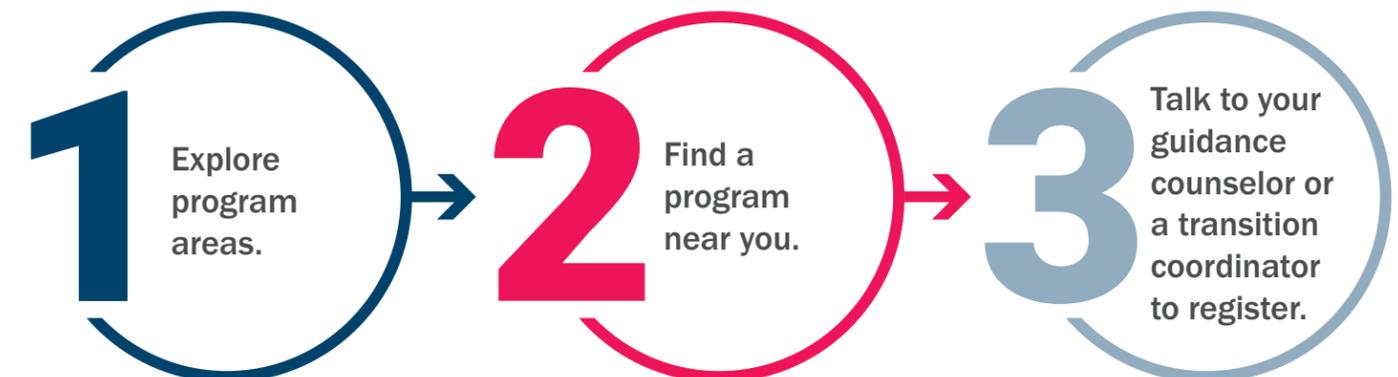

No matter what your passion, skills, or interests are, there's a career technical education program for you.

Hands-on learning = high demand jobs

Career technical education (CTE) programs focus on applied learning and career readiness to give you the confidence and skills you need to get an in-demand job. So no matter where you are in your life or career, you'll be learning industry-standard equipment and software you'll actually be using on the job. That means you have real skills and experience to offer an employer. And because CTE programs are aligned with regional and statewide labor needs, you'll be training to get a job in your field of study.

Ready to get started?

What are you
PASSIONATE
about?
